

# STAIR PARTS & ARCHITECTURAL MOULDINGS

When viewing the design and stylistic elements inside a fine old home, it is easy to feel the elegance of a bygone era. The rich detail of carved rails and turned balustrades draws your eye to the showpiece staircase, while decorative wood-carved mouldings make the home's inherent character and historical personality come alive.

ings for window and door trim.

Goodwin has searched out these antique patterns and captured the romance of this lost artwork. Now you can have premier quality **River-Recovered Heart Pine™** or **River-Recovered**

**Heart Cypress™** in classic stair parts and architectural mouldings. We can help with traditional patterns or elegant new styles of your own creation.

**ABOVE:** *Today the clothing is more casual and the millyard more organized, but the feeling of 'family' in this 1880s photograph is much the same at Goodwin Heart Pine. Close to Interstate 75, we invite you to visit and see for yourself the warmth and caring we have for each other and our work.*

**LEFT:** *Curly and vertical boards alternate on this antique Heart Pine stairwell. The Lapham-Patterson House, built in the 1880s, is an elegant example of Heart Pine's strength and beauty. Notice the Heart Pine rosettes and reeded casing trim on the doorway.*

Mouldings today are often plain wood strips to hide the gaps, compared to the timeless designs of architectural millwork from the last century. Fine mouldings are like a frame that outlines a work of art – a shiny wood floor wrapped in base moulding, ceilings trimmed in crown mouldings, and special cas-

# A STEP UP IN QUALITY

**S**howpiece or austere elegance. Whatever expression of design you choose for your stairway, Goodwin crafts and stocks an extensive selection of accentuating stair parts.

## HAND RAILS

### HAND RAIL

2-3/8" x 2-1/2"

### BANISTER RAIL

2-5/8" x 2-7/8"

### PORCH RAIL

1-3/8" x 2-1/4"

### MASSIVE HAND RAIL

2-1/2" x 3-1/4"

### COMBINATION HAND/PORCH RAIL

2-1/2" x 3-7/8"

We offer risers and handrails, solid and laminated stair treads and blanks for balusters, rails and moulding – available in any of our select wood species.

## STAIR MOULDINGS

### STAIR TREAD RETURN MOULDING

1 x 1-1/2"

### BULL NOSE TRIM

3/4 x 5-1/2"

3/4 x 3-1/2"

### RADIUS STAIR TREAD

Right -hand shown.

Available left or double radius.

### STAIR TREAD WITH RETURN MOULDING INSTALLED

Right -hand attached.

Available left or both.

*The owners of this Florida beach-front home wanted to reproduce the two and one-half story stairwell in their Cape Cod home, also made of solid Heart Pine. The treads, finished a full two inches thick, are completed by large newel posts and square balusters and handrail.*

## TREAD ASSEMBLY

*Only Goodwin offers solid Heart Pine Treads. We also offer laminated treads and baluster blanks. All stair-parts and mouldings come in FAS or cabinet grade lumber. Treads are most often ordered untrimmed for installation onsite. We can, however, make a radius tread or attach returns for you if your stairmaker prefers. Tread Sizes: 4/4 x 11-1/4 x 3', 4', 5' and up.*

# FOR ACCENT, WOOD WORKS

The ancient Greeks were the first to accent their structures with architectural mouldings meant solely to beautify surfaces. American craftsmen of the 19th century refined these wood-carved ornamentations in Victorian homes and palaces. They used wooden block planes that required a helper with a push stick, providing the muscle to remove the wood while the craftsman simply guided the plane.

Today, even our high-tech moulder requires special steel, the sharpest equipment and skilled operators to reproduce these antique patterns in old-growth Heart Pine and Heart Cypress.

We can help you match classic patterns or create your own style with a variety of fine wood mouldings, including:

- astragals • aprons
- back band • base • bed • brick
- cap • casing • chair • cove
- crown • fluting • panel • picture
- plinth blocks • reeded • rosettes
- screens • sills • thresholds.

We grind our own moulding machine knives on site should your design call for something different. Or, you can combine more than one profile into a larger, more ornate moulding to spice up the appearance of any room.

## CROWN MOULDINGS

### STEP CROWN

3/4 x 3-1/2"

### STEP CROWN

3/4 x 5-1/2"

### COVE CROWN

3/4 x 3-1/2"

## CASINGS

### STEP CASING

3/4 x 3-1/2"

### PINCHED CASING

3/4 x 3-1/2"

### COLONIAL CASING

13/16 x 2-1/2"

## CHAIR RAIL

### DOUBLE EDGE

3/4 x 3-3/4"

4/4 x 3-3/4"

### RIBBON

3/4 x 3-1/2"

## PANEL MOULDING

7/8 x 1-9/16"

## PICTURE MOULDING

3/4 x 1-3/4"

## PICTURE FRAME MOULDING

4/4 x 2-1/2"

## REEDED MOULDING

13/16 x 3-1/2"

## ROSETTE

4/4 x 4"

# RARE WOOD AND FINE MILLWORK: ELEGANT EXPRESSIONS OF YOUR DESIGN

**O**ur stair parts and decorative wood mouldings are architecturally drawn and are designed to classic proportions, providing you with a variety of choices to create the most beautiful surroundings possible.

We still craft the same solid-wood, full-dimension mouldings that were last offered in the 1925 edition 8000 Series by the Southern Pine Inspection Bureau (reprints available).

All mouldings come with "sand-free" millwork at no extra cost. If you don't see the moulding pattern of your choice, please mail or fax us a sample or drawing or ask for our pattern book. We'll help you find just the right selection.

**RIGHT:** *When George Goodwin started sawing River-recovered pine and cypress logs in 1978 he knew this was his calling. The wood's hardness and durability provide an essential challenge, and George's crew is continually inspired by his passion for the wood's history and beauty.*

## CLASSIC DESIGN

### SHOE

3/4 x 1/2"

### QUARTER ROUND

3/4 x 3/4"

### COVE

3/4 x 3/4"

Our moulding line begins here with just a few patterns of each type. Milling knives can be ground for your own designs or to match on-site mouldings for restoration.

We are always happy to work with any member of the building team. Please ask if we can help with further information.

# GOODWIN

Heart Pine Company

River-Recovered Heart Pine Specialists™

- All of our mouldings and trim have "sand free" millwork, free of charge.
- Milling knives are ground at \$50 per inch; allow 1/2" more than the finished pattern width.
- Set-up time for a custom mill run is \$50, no minimum. Set-up is waived for runs over 1,000 LF.
- Millwork is produced in quality clear Heart Pine, Heart Cypress and sustainably harvested hardwoods.

### OGEE BASE
