Fun Accessories for Your Wood Floors

1 Feet for Your furniture!

Self stick or tap on pads on your furniture are your #1 best protection. Change them periodically on chairs that are moved often.

Ask your local floor store for E.Z. Glides or Safeglides, or you can order from Wood Craft Wood Floors (www.woodcraftwoodfloors.com) at 800.200.1201

Wood Plugs or Cut Nails!

For an authentic restoration, Goodwin makes wood plugs in various sizes to match your floor. For nails, call Tremont at 800.842.0560 (www.tremontnail.com)

Complements! Complements!

Blend wood floor into your home with wood vents, moulding, thresholds, fireplace mantles and borders. Even simple inlay designs can add a lot of interest.

Contact us to find out all the possibilities. Here are a couple of pictures to show you some choices.

Real Wood Furniture for Real Wood Floors!

There is a sense of romance and pride that comes from shaping rare, historic woods into individual works of art. This furniture is such a wonderful legacy, for both us and our clients.

Goodwin-Webb Cabinet Makers

Easy to Care for Finish

The wood comes to life the moment the oil touches the surface. We use a mixture of oils and wax that is flexible, adds hardness and is easy to maintain. Compared to sprayed on finishes that ship over time, you never have to replace this finish. All you ever have to do is clean and possibly rewax.

There are No Short Cuts

Each dovetail is hand chiseled. The drawer design came from studying the finest antiques. Beveled bottoms that fit snugly into grooves in the box, while light, add sturdiness to the overall piece.

Yesterday's Tradition- Today's Common Sense

It was the joinery that people value so highly and that make today's antiques still sturdy. We produce furniture that is not only elegant and useful; it also is strong and durable and stands the test of time.

Warm wishes for enjoyment of your Goodwin wood products for many years.
