Introducing antique wood adds a warm, natural and relaxing feel to any room in your home or office. Sinker cypress and heartpine paneling and accents are on the rise in contemporary design as consumers seek unique and sustainable products to personalize their work and living spaces.

Prizes can include factory finishing, custom colors or natural and textures.

Entry is easy and requires only your name, best contact, a quick sketch of your proposed design and brief description of your project. Five jurors - all AIA architects from across the nation - will be the only people to see your entry when they meet at Goodwin Company to judge the entries.
